December 31, in Bryant Pond, Woodstock, Me., Raynor D. Littlefield, age 66 years. Birthplace, Woodstock, Me. Cause of death, Acute Coronary Thrombosis.

Respectfully submitted,

ROWENA DUNHAM, Clerk

ANNUAL REPORT OF PUBLIC HEALTH NURSING**FOR THE TOWN OF GREENWOOD****For the Year Ending, December 31, 1962**

Your public health nurse is an employee of the State Department of Health and Welfare working under the guidance of the Director of Public Health Nursing. She provides what is termed a generalized service, which means that she gives service to people in their homes, in the schools and in the community.

The type of public health nursing service rendered must change to keep pace with changing community needs. Recently much emphasis has been placed on health care of the chronically ill and the aged in the home whenever possible to work out ways for such care. There have been opportunities in this area for the nurse to give guidance to someone; someone who needed the services of a physician or clinic, someone who needed to discuss his diet and how he might make use of available foods and perhaps most important to be a good listener to someone who needed to feel that he was wanted and loved. These are just a few instances of public health nursing services which involved time, knowledge of resources—how and when to use them, as well as special nursing skills, none of which lends itself well to statistical reporting or other kind of measurement.

Protection against communicable diseases has been offered in the schools and to the infants and pre-school children at child health conferences either in Greenwood or Bethel. The number of completed immunizations given is shown in the following table:

Immunizations	Number of Individuals
Diphtheria, pertussis, tetanus (combined)	15
Poliomyelitis	62
Small-pox	1

Appreciation is expressed to all persons in the community who have assisted in this program.

VELMA M. SPENCER, R. N.

Public Health Nurse

REPORT OF SUPERINTENDENT OF SCHOOLS

To the Citizens of Greenwood:

I am glad to submit my first report as Superintendent of Schools for the Town of Greenwood.

Since assuming the duties of Superintendent of Schools in Union #22 on September 1, 1962, it has been necessary for me to become acquainted with the complete educational program in the six Towns comprising the union, and the special problems of each community.

Perhaps the greatest common problem facing the smaller towns in Maine and throughout the country is the financial support of high quality education for the boys and girls of the community, in the face of ever rising costs.

It is clear that additional state aid in some form must soon be made available to help carry the ever increasing cost of public education.

Two bills now before the State Legislature, designed to give substantial assistance through increasing the state subsidy effective in 1964, deserve your consideration and support.

Two elementary schools are provided in Greenwood. The Locke Mills elementary school houses grades Primary through Eight in three rooms with three full time teachers.

Mrs. Floribel Haines serves as principal and teaches all of the work in grades Six, Seven and Eight. Grades Four, Five and Six are taught by Mrs. Ruth Curtis, while Mrs. Melva Willard teaches the Primary grade and grades One, Two and Three.

Greenwood, as do the other towns of the Union, shares in the services of a music teacher. Mrs. Edith Eyppe serves in this capacity.

The City School in the Greenwood City area is a one room building established in 1859. It has been modernized

and houses all pupils in the area of the Town in Primary through grade Eight. Four pupils will graduate from this eighth grade in June.

Mrs. Colista Morgan has served this school and community for thirty-six years. This is an outstanding record for which this community should be deeply grateful.

The fourteen elementary children in the Irish Neighborhood continue to attend the Bethel schools on a tuition basis. It appears that there will be two more children from this area entering school in September.

The secondary pupils are divided between Gould Academy, Woodstock High School, West Paris High School, and Oxford Hills High School.

The current enrollment by grades is:

Elementary				
	Locke Mills	City	Bethel	
Primary	8	3	1	
Grade 1	6		3	
2	8	7		
3	10	7	3	
4	9		2

Juniors	2	3	1	1
Seniors	2	1	1	
	—	—	—	—
	11	15	5	2
Total Secondary				33
Total Enrollment				149

School Building Fund

The school building fund was increased by the appropriation of \$3,500.00 last year.

This year the School Committee recommends that the same amount, \$3,500.00, be raised for future school building needs and that this money be deposited in the existing savings account where interest will accrue. By such annual appropriations this fund can be built up so that it will be a substantial help when needed for new school construction.

Scholarship Fund

On May 21, 1942 the School Committee voted to establish a scholarship fund to be known as the Ekco-Greenwood Scholarship Fund. The purpose of this fund is to provide financial assistance in the form of scholarships or loans to needy Greenwood pupils who seek to further their education beyond high school. The Greenwood School Committee will act as trustees of this scholarship fund on a perpetual basis and will have complete authority in management of the fund and the awarding of scholarships or loans.

It is the wish and intention of the founding committee that annual Ekco contributions for school purposes, as well as funds derived from other sources, including those raised at annual Town Meetings, be deposited to the credit of the Scholarship Fund so that it may be both sustained and increased. All awards made from this fund will be paid directly to the institution in which the recipient is enrolled. All matters coming before the trustees for decision will be determined by a majority vote.

The trustees wish to extend their thanks to the Ekco Foundation, Incorporated, for their generous contribution in December of \$150.00 to be added to this fund.

Curriculum

In September the new program in Arithmetic was introduced throughout the schools in Union No. 22, and is being well received by both pupils and teachers. New texts were provided at the opening of school in September and are now being used by all pupils.

Plans are now under way to study the needs in Reading and Science this year with a view toward adopting a uniform and improved reading program for the next school year, and keeping the instruction in Science in step with current developments.

Budget

The budget this year shows a large increase over the appropriation of a year ago and a substantial increase over the actual expenditure for the year 1962. It also reflects an overdraft of \$1,181.55 on December 31, 1962, even though you began the year on January 1, 1962 with a balance of \$4,171.08.

A breakdown of the operational costs for 1962 shows an estimate of \$16,315.00 for Instruction with an expenditure of \$16,569.00. It shows an estimate of \$1,100.00 for Plant Maintenance with an expenditure of \$1,474.00, largely due to replacement of the septic tank at Locke Mills school. An estimate of \$16,800.00 is shown for Tuition with an expenditure of \$18,591.00.

This tuition increase could not wholly be anticipated because of a change in the law allowing a charge of 125% of the current state average per pupil cost of high school operation.

The tuition estimate of \$23,646.00 for 1963 is based upon the best available figures and caused the major portion of the budget increase.

Following are the School Committee recommendations for 1963:

ADMINISTRATION		\$1,230.00
Salaries	\$1,100.00	
Other Expenses	130.00	
INSTRUCTION		16,950.00
Salaries	15,500.00
